Portfolio: portfolios-nu-two.vercel.app Location: Lagos, Nigeria

---

## PROFESSIONAL SUMMARY

Results-driven Frontend Engineer with hands-on experience building scalable, production-ready web and mobile applications. Specializing in React, Next.js, and React Native, I collaborate closely with designers, developers, and stakeholders to deliver high-quality, SEO-optimized digital products — from landing pages to full-featured platforms and cross-platform mobile apps. Active hackathon competitor with a track record of shipping under pressure, including one competition win. Passionate about clean architecture, performant UIs, and shipping software that makes an impact.

---

## EXPERIENCE

### Frontend Engineer @ Pantheon

2025 – Present

- Led frontend development of Pantheon's new startup portfolio feature, directly contributing to higher deal acquisition and investor visibility.
- Developed the frontend for Lagos Cricket Club as a partner project, collaborating with Pantheon's engineering team to deliver a polished, production-ready website.

### Junior Frontend Engineer @ MedicX

2025 – Present

- Built and shipped the MedicX landing page in close collaboration with designers, developers, and stakeholders — translating product vision into a compelling, conversion-optimized web experience.
- Developed and shipped the MedicX Waitlist Form end-to-end, implementing full functionality to capture and onboard early users ahead of product launch.

---

## PROJECTS

### Shift — Cross-Platform Mobile App

- Building a cross-platform mobile app using React Native, Expo Router, TypeScript, and NativeWind, with an Axios-based API client and token-based auth interceptors.
- Implemented custom themed UI components, gradient-based cards, and a reusable floating action button, with a backend deployed on Render.

### JShare — File-Sharing Platform

- A fast, minimal file-sharing web application enabling users to upload and share files via shareable links. Stack: React, TypeScript, Tailwind CSS. Link: j.upload.vercel.app

---

## HACKATHONS & ACHIEVEMENTS

- Competed in multiple hackathons, building and shipping functional products under tight deadlines.
- Winner, Code4Justice TLC — recognized for delivering the strongest product/solution among competing teams.

---

## SKILLS

**Languages & Frameworks:** React, Next.js, TypeScript, JavaScript, React Native, Tailwind CSS, NativeWind

**Desktop & Cross-Platform:** Electron.js, Expo Router

**Tools & Workflow:** Notion, Git, GitHub, Vercel, Render

---
